

Flummi — Privacy Policy

Effective date: August 18, 2026

Last updated: August 18, 2026

This Privacy Policy explains how **Sektor Null** ("we", "us", or "our") processes information through **Flummi**, our Discord bot.

We aim to collect and retain only information reasonably necessary to operate Flummi's features.

1. Who Is Responsible for Your Data?

The controller responsible for information processed by Flummi is:

Operator: Sektor Null

Email: sektornullnull@gmail.com

For privacy questions, requests, or complaints, you can contact us using the information above.

2. Information We Process

Depending on which Flummi features you use, we may process the following categories of information.

2.1 Discord Account Information

Flummi may process identifiers provided by Discord, including:

- Discord user ID;
- Discord username or tag;
- Discord server/guild ID;
- server membership information;
- roles or permissions relevant to performing requested commands;
- channel or message information necessary to operate a feature.

We generally use Discord identifiers rather than collecting additional identifying information about you.

2.2 Messages and User-Provided Content

When you interact with Flummi, we may process the content you provide, including:

- messages sent to Flummi;
- messages to which you reply when using Flummi's reply-related features;
- command input;
- attachments;
- image URLs;
- other content necessary to perform a requested function.

Some Flummi features may store portions of this information.

2.3 AI Conversation Memory

Flummi can maintain per-user AI conversation memory.

This may contain:

- previous messages sent to Flummi;
- Flummi's previous responses;
- conversation summaries;
- automatically generated profile or preference information;
- detected conversation topics;
- limited interaction-style signals;
- information necessary to provide continuity between conversations.

The purpose of this processing is to allow Flummi's AI features to remember relevant context between interactions.

2.4 User Profiles

Flummi allows users to create profiles.

Depending on what a user chooses to provide, a profile may contain:

- nickname;
- biography;
- pronouns;
- birthday;
- timezone;
- languages;
- website;
- banner URL;
- profile color;
- social-media handles.

These fields are optional unless otherwise stated by a particular feature.

You should not provide information in your profile that you do not want stored or displayed to other Discord users.

2.5 Server Configuration

For servers using Flummi, we may store configuration associated with the Discord server, such as:

- server/guild ID;
- whether Flummi is enabled;
- whether triggers are enabled;

- trigger cooldown settings;
- trigger length limits;
- trigger matching settings;
- other configuration required by Flummi.

2.6 Triggers and Bot Configuration

Server administrators may configure automated triggers and responses.

Depending on the configuration, Flummi may store:

- trigger text;
- trigger responses;
- trigger configuration;
- trigger usage statistics;
- server-specific settings.

2.7 Statistics

Flummi may collect statistics required to provide server statistics or usage-related functionality.

This may include information such as:

- message counts;
- command or trigger usage;
- server activity statistics;
- user-related statistics;
- voice activity or voice-time statistics.

2.8 Ping Requests and Saved Messages

Certain Flummi features allow users to save or request information from messages.

When used, Flummi may store information such as:

- the Discord ID of the person making the request;
- their Discord username or tag;
- the date and time of the request;
- the Discord ID and username/tag of the referenced message's author;
- the referenced message's content;
- attachment URLs.

This information is stored to provide the requested functionality.

3. How We Use Information

We use information processed through Flummi to:

- operate and maintain the Bot;
- respond to commands and interactions;
- provide AI conversation functionality;
- maintain AI conversation memory where enabled;
- provide user profiles;
- provide server statistics;
- provide voice-related statistics;
- operate triggers and automated responses;
- save information explicitly requested through Bot functionality;
- authenticate or authorize administrative functionality;
- troubleshoot technical problems;
- maintain security and prevent abuse;
- improve the reliability and functionality of Flummi;
- comply with applicable legal obligations.

We do not use personal information for purposes unrelated to operating, securing, maintaining, or improving Flummi unless otherwise disclosed or required by law.

4. Legal Bases for Processing

Where the EU General Data Protection Regulation (GDPR) applies, the legal basis for processing may depend on the particular feature and circumstances.

Possible legal bases include:

Performance of a contract

Processing may be necessary to provide functionality requested by you or by the Discord server using Flummi.

Legitimate interests

We may process limited information where necessary for legitimate interests such as:

- operating and securing Flummi;
- preventing abuse;
- maintaining service reliability;
- debugging;
- protecting the service and its users.

We consider the rights and interests of users when relying on this basis.

Consent

Some optional functionality may rely on consent where appropriate.

Where processing is based on consent, you may withdraw consent, although this does not affect processing that occurred before withdrawal.

Legal obligations

Information may be processed where necessary to comply with applicable legal obligations.

5. AI and Third-Party Services

Some Flummi functionality may rely on external service providers, including AI, image-search, hosting, or other infrastructure providers.

When a feature uses such a provider, information necessary to provide that feature may be transmitted to the relevant provider.

Depending on the feature, this can include:

- message content;
- conversation context;
- image URLs or attachments;
- technical information;
- information required to perform the requested operation.

Third-party providers process information according to their own terms and privacy policies.

The specific third-party providers used by Flummi may change as the service evolves. Sektor Null will maintain this policy to reflect material changes to those providers.

6. Discord

Flummi operates through Discord.

Discord independently processes information in connection with its platform. Flummi does not control Discord's data processing.

You should also review Discord's privacy documentation and terms when using Discord.

7. Data Storage

Flummi currently uses local JSON-backed storage for various categories of data.

Depending on the feature, data may be stored in files associated with:

- individual Discord users;
- Discord servers;
- global bot configuration;
- AI conversation memory;
- profiles;

- triggers;
- statistics;
- saved message/ping requests.

The exact storage location depends on the deployment environment operated by Sektor Null.

8. Data Retention

We retain information only for as long as reasonably necessary for the purposes described in this Privacy Policy, unless a longer retention period is required by law.

Retention periods may differ between types of information.

For example:

- AI conversation memory may be retained until it is cleared through the relevant feature or a deletion request;
- user profile information may remain until the user changes or deletes it;
- server configuration may remain while Flummi is installed or until the configuration is deleted;
- statistics may be retained for as long as necessary to provide statistical functionality;
- security and technical records may be retained for a reasonable period necessary for security and troubleshooting.

9. Data Deletion

You may request deletion of personal information associated with your use of Flummi.

Deletion requests should be sent to:

Email: sektornullnull@gmail.com

Please provide enough information for us to identify the relevant Discord account or data without unnecessarily sending additional personal information.

Where technically and legally possible, we will delete the requested personal information.

Some information may need to be retained where required by law, necessary to establish or defend legal claims, or necessary for security purposes.

10. Access and Other Privacy Rights

Depending on applicable law, including the GDPR, you may have rights including:

- the right to access your personal information;
- the right to correct inaccurate information;
- the right to request deletion;
- the right to restrict processing;
- the right to object to certain processing;
- the right to data portability;

- the right to withdraw consent where processing is based on consent.

You may exercise applicable rights by contacting:

sektornullnull@gmail.com

You may also have the right to lodge a complaint with the data protection authority responsible for your country or region.

11. Children's Privacy

Flummi is not intentionally designed to collect personal information from children.

If you believe that a child has provided personal information through Flummi in circumstances where such processing is not permitted, contact us at **sektornullnull@gmail.com**.

We will review and, where appropriate, delete the relevant information.

12. Security

We use reasonable technical and organizational measures intended to protect information processed by Flummi.

However, no internet service, computer system, or storage system can be guaranteed to be completely secure.

You should therefore avoid sending highly sensitive information to Flummi unless the relevant feature specifically requires it.

13. International Data Transfers

Depending on where Flummi and its third-party providers are hosted, information may be processed or stored outside your country.

Where applicable law requires safeguards for international transfers, we will use appropriate safeguards.

14. Changes to This Privacy Policy

We may update this Privacy Policy when Flummi's functionality, data processing, third-party services, or legal requirements change.

The "Last updated" date at the top of this document will be updated when changes are made.

For significant changes, we may provide additional notice through Flummi, the project repository, Discord server, or another appropriate channel.

15. Contact

For privacy questions, requests, or complaints:
